CHICAGO—Again this month, twelve of Illinois' metropolitan (metro) areas experienced decreases in their over-the-year unemployment rate and eight of the metro areas had increases in nonfarm jobs, according to preliminary data released today by the U.S. Bureau of Labor Statistics (BLS) and the Illinois Department of Employment Security (IDES)."

"Job growth is primarily confined to metro areas north of the I-80 corridor and even though it is growth, it is anemic growth when compared to other major metro areas across the country such as New York, Los Angeles and Dallas," said IDES Director Jeff Mays. "And many of the Downstate metros still haven't fully recovered from the recession."

Illinois businesses added jobs in eight metro areas, in which the largest increases were seen in: Rockford (+2.2 percent, +3,400), Lake-Kenosha (+1.5 percent, +6,300), and Elgin (+1.3 percent, +3,400). Total nonfarm jobs in the Chicago-Naperville-Arlington Heights Metro Division increased (+1.3 percent or +46,800).

Illinois businesses lost jobs in six metro areas including the Quad Cities (-3.2 percent, -5,900), Bloomington (-2.5 percent, -2,400),

and Carbondale-Marion (-2.3 percent, -1,300). The industry sectors recording job growth in the majority of metro areas were: Retail Trade (10 of 14), Professional and Business Services (eight of 14), and Leisure and Hospitality (eight of 14).

Not seasonally adjusted data compares August 2016 with August 2015. The not seasonally adjusted Illinois rate was 5.5 percent in August 2016 and stood at 12.2 percent at its peak in this economic cycle in January 2010. Nationally, the not seasonally adjusted unemployment rate was 5.0 percent in August 2016 and 10.6 percent in January 2010 at its peak. The unemployment rate identifies those who are out of work and looking for work, and is not tied to collecting unemployment insurance benefits.

Metro East Highlights

Help Wanted

Area employers advertised for 5,300 openings in August and approximately 83 percent sought full-time employment, according to Help Wanted OnLine data compiled by the Conference Board. It is a global, independent business membership and research association. Employers actually need more workers than the help wanted ad indicates because some industries, such as construction, typically do not advertise job openings.

The August 2016 unemployment rate for the Illinois Section of the St. Louis Metropolitan Statistical Area was 5.7 percent, a decrease of (-0.5) from the August 2015 rate of 6.2 percent. The data is not seasonally adjusted.

The number of employed individuals increased by 9,043 to 332,427 in August 2016 from 323,384 in August 2015. The labor force increased by 7,963 to 352,633 in August 2016 from 344,670 in August 2015. In August 2016, there were 20,206 unemployed people in the labor force. This is a decrease of 1,080 compared to the August 2015 total unemployed, 21,286.

Over the year, nonfarm payrolls increased by (+700). Employment increased in Retail Trade (+1,000), Transportation, Warehousing and Utilities (+300), Educational and Health Services (+300), Wholesale Trade (+200), Professional and Business Services (+100), Leisure and Hospitality (+100) and Other Services (+100).

Manufacturing (-600), Financial Activities (-300), Mining and Construction (-300), and Government (-200) sectors posted decreases and Information showed no year over year change.
